

F3 helmet

Catchline

To develop a ballistic helmet with increased payload capacity

Features

- Side rails for attaching accessories and small-sized tactical gear
- Large self-gripping hooking surface
- Aramid shell provides increased fragmentation protection
- Compatibility with FELIN accessories retained

Target improvements

- Renew the armed forces' "small equipment" in accordance with the Military Planning Law (LPM) 2019-2025

- Modernise the FELIN combat helmet to meet evolving operational needs
- Increased helmet carrying capacity
