

## Medium-range missile MMP (Missile Moyenne Portée)

### **Catchline**

Allow front-line forces to neutralise the different types of target encountered in all theatres of operations with high precision

### **Features**

- Dual-band seeker (colour TV and un-cooled IR)
- Dual “fire-and-forget” and “man-in-the-loop” capability
- Adjustable trajectory to adapt to the threat and situation
- Ability to acquire and fire in any weather and any environment
- Light, robust, maintenance-free missile

### **Advantages**

- Autonomous support for front-line units
- Wide range of potential targets (anti-armour, anti-infrastructure, antipersonnel)
- Fast deployment and increased firing precision
- Targeting on coordinates and beyond line of sight (BLOS)

Deployments: Operation Barkhane, Lebanon

Manufacturer: MBDA
