

## Operational parachutist landing system (SMTCOPS)

### Catchline

Allows the discreet landing of commando or intelligence gathering groups

### Features

- Total gross weight (TGW): 200 kg
- Maximum deployment altitude: FL295 (9,000 m)
- Parachute infiltration in excess of 40 km

- Self-guiding harness bag dropped at the same time as the parachutist
- Navigation system

**Main advantages**

- Parachute infiltration performance (PIP)
- Team communication during parachute infiltration and positioning of cargo bags in relation to the commandos
- Head thermal protection and body ballistic protection
- Load carrying
- Safe night landings in unknown, unequipped areas

Manufacturer: SAFRAN
